

iG-15Pro
Electric Guitar Amplifier Manual

Warning!

IMPORTANT SAFETY INSTRUCTIONS

1. Read these instructions.
2. Keep these instructions.
3. Heed **all** warnings.
4. Follow **all** instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings.
8. Install in accordance with the manufacturer's instructions.
9. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
10. Do not defeat the safety purpose of the polarized or grounding-type plug.
11. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
12. Only use attachments/accessories specified by the manufacturer.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer **all** servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

"TO COMPLETELY DISCONNECT THIS APPARATUS FROM THE AC MAINS, DISCONNECT THE POWER SUPPLY CORD PLUG FROM THE AC RECEPTACLE"

"WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPARATUS TO RAIN OR MOISTURE AND OBJECTS FILLED WITH LIQUIDS, SUCH AS VASES, SHOULD NOT BE PLACED ON THIS APPARATUS"

This symbol is intended to alert the user to the presence of important operation and maintenance (servicing) instructions in the literature accompanying the appliance.

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

Important safety information!

READ THE FOLLOWING INFORMATION CAREFULLY. SAVE ALL INSTRUCTIONS FOR FUTURE REFERENCE!

Follow all warnings and instructions marked on the product!

Danger! High internal operating voltages.

Do not open the equipment case. There are no user serviceable parts in this equipment.

Refer **all** servicing to qualified service personnel.

Clean only with a dry cloth.

Condensation can form on the inside of an amplifier if it is moved from a cold environment to a warmer location. Before switching the unit on, it is recommended that the unit be allowed to reach room temperature.

Unauthorised modification of this equipment is expressly forbidden by Guangzhou DK Electronic Technology Co., Ltd. Otherwise, it will be considered as an automatic waiver of the warranty. Do not expose this apparatus to rain, liquids or moisture of any type. Never push objects of any kind into ventilation slots on the equipment casing.

Avoid placing vessels filled with liquid on top of the amplifier.

Do not place this product on an unstable trolley, stand or table. The product may fall, causing serious damage to the product or to persons!

Do not cover or block ventilation slots or openings.

This product should not be placed near a source of heat such as a stove, radiator, or another heat producing amplifier.

Use only the supplied power adaptor which is compatible with the mains voltage supply in your area.

The power supply adaptor should always be handled carefully and should be replaced if damaged in any way.

Never break off the earth (ground) pin on the power supply adaptor. The power supply adaptor should be unplugged when the unit is to be unused for long periods of time.

Before the unit is switched on, the loudspeaker should be connected as described in the handbook using the lead recommended by the manufacturer.

Always replace damaged fuses with the correct rating and type.

Never disconnect the protective mains earth connection.

High loudspeaker levels can cause permanent hearing damage. You should therefore avoid the direct vicinity of loudspeakers operating at high levels. Wear hearing protection if continuously exposed to high levels.

If the product does not operate normally when the operating instructions are followed, then refer the product to a qualified service engineer.

Only suitable for safe use under non-tropical climate conditions. Maximum ambient temperature for operation: 35°C

Always make sure that the power adaptor is connected to a socket/outlet with an earthed connection. Mains Voltage: 100-240V ~ 50/60Hz.

This amplifier is only designed and evaluated for safety at a maximum altitude of 2000m.

All electrical and electronic products should be disposed of separately from the municipal waste stream via designated collection facilities appointed by the government or the local authorities.

INSTRUCTION

Thank you for purchasing this iG-15Pro electric guitar amplifier. Like all our products, this iG-15Pro is the result of countless hours of painstaking Research and Development by our design team. Based in Zhuhai (CHINA), the DK team are all experienced musicians themselves and the sole aim of the development process is to provide guitarists with the ultimate tools for self-expression. All DK products are subjected to extensive laboratory and road testing to ensure that they are truly uncompromising in terms of reliability, quality and above all TONE. The iG15Pro series is packed with innovative, ground-breaking technology allowing the sound in your head to be more portable than ever before. Please read through this handbook carefully to ensure you get the maximum benefit from your new DK product. To find out more about the DK range of products please visit our website at www.dk-music.cn

Thanks!

Guangzhou DK Technology Co.,Ltd

FEATURES

Bluetooth, Playing high-quality music via Bluetooth.

Delay effect

Internal recording / External audio source

Clear Sound / Distortion, two sound channels

3.5mm headphone jack

Gain, Tone and Volume adjustable.

External power supply / Built-in high-capacity lithium battery (6-8 hours of battery life).

DIMENTION

PARAMETER

Speaker	5 - inch Full-frequency speaker*1
Channel	Single Channel
Power	15 W
Impedance	4 Ω
Input Voltage	5V-2A
Output Voltage	12V
Dimension	230mm×127mm×278mm

FRONT PANEL FUNCTIONS

- ① Guitar signal input
- ② Bluetooth switch
- ③ Bluetooth indicator light
- ④ Distortion/Clean channel switch button
- ⑤ Audio input and internal recording interface
- ⑥ Headphone jack
- ⑦ Delay volume control
- ⑧ Power indicator light
- ⑨ Power switch
- ⑩ Gain control
- ⑪ Volume control
- ⑫ Tone control
- ⑬ Delay control
- ⑭ Master volume control

- ① Charging indicator light
- ② Charging Port

Function	Using Guidance and Tips
Power On/Off	Press and hold the [POWER] button for 2 seconds to turn the product on. After turning on, the indicator light will remain blue. To turn it off, press the button for 1 second. After turning off, the indicator light will go off.
Bluetooth	After turning on [BT] , the indicator light will flash slowly in blue. On your phone, enable Bluetooth and search for the system name "DK iG-15Pro". Then, select to pair, and when successfully connected, the light will stay lit in blue
Clean and Distortion	Press the [DRIVE] button to switch between the clean and distortion channels. When switching to the distortion channel, you can control the distortion and clean functions individually by using the [GAIN] knob, which functions as a latch switch.
Delay Adjustment	Rotate the [DELAY] potentiometer and the [LEVEL] potentiometer to adjust the delay effect.
Headphone Connection	Connect headphones with a 3.5mm plug to the jack for monitoring purposes. When using headphones, the speaker is in mute status. (Please confirm if it's muted)
Internal Recording	Use a dedicated cable to connect to the [AUX IN/ REC] interface for recording.
Low Battery Alert	When the battery is low, the power indicator light will turn red. Please recharge the device promptly.
Charging	Please use the provided power adapter to charge the device. While charging, the charging indicator will be red, and it will turn off when fully charged.

PRECAUTION

- 1.Before installation and use, please read the user manual in detail.
- 2.Store this product in a dry place to prevent moisture damage. Do not use it in extreme temperatures.
- 3.Prevent any objects or liquids, such as flammable materials or water, from entering the device.
- 4.When using wireless transmission products together with this device, noise or interference may occur.
- 5.If the product is not used for an extended period, please turn off the power switch. When charging, use a charger with a voltage of 5V and a current greater than 500mA. Make sure to turn off the power while charging.
- 6.To ensure the normal operation of the device, it should be powered on at least once every 2-3 months. Do not leave the product turned on for long periods without shutting it down to avoid over-discharge.
- 7.This product contains a built-in lithium battery. Avoid exposing the battery to high heat sources. Additionally, dispose of old batteries in accordance with local regulations regarding safe battery disposal.
- 8.Do not attempt to repair the device yourself in case of a malfunction. For after-sales service, please contact your local authorized dealer.
