

Specifications

Rated power: 10W

Peak power: 20W

Speaker Unit: Full-range 1.75" * 5W*2;

Charge: USB Type-C DC5V 1000mA;

Battery: 3.7V2000mAh Lithium Battery;

Instruments Input: 6.35 interface;

Signal-to-Noise Ratio: 80dB;

Input Impedance: 1Mohm;

TONE frequency range: 125-6.5KHz + 8dB

Frequency response: 40Hz-16KHz;

Effect: Clean, Overdrive, Reverb;

AUX Input: 3.5mm interface;

Signal-to-Noise Ratio: 95dB;

Input Impedance: 10Kohm;

Bluetooth: V5.3, obstacle-free effective range 15m;

Headphone Output: 3.5mm interface (Stereo);

Charging Time: 2 hours;

Battery Life: 4-6 hours;

Packing Dimensions:

Length 160mm * Width 105mm * Height 110mm;

Net Weight: 400g;

Gross Weight: 450g.

Features

- (1) Guitar Input: For connecting guitar audio cables;
- (2) Power Switch/Guitar Volume: Rotate clockwise to 35 degrees to turn on, continue rotating to adjust guitar volume; rotate counterclockwise to 30 degrees to turn off;
- (3) Power/Charge Indicator Light: Stays on when the device is on and fully charged, flashes during charging;
- (4) Mode Switch: Lifted for clean tone, pressed for overdrive tone;
- (5) Gain Knob: Adjustable for the gain size of guitar input;
- (6) Tone Knob: Adjustable for guitar tone, clockwise for enhanced treble, counterclockwise for enhanced bass;
- (7) Bluetooth Switch: Long press to power on/off, tap to play/pause Bluetooth music (volume not controlled by (2));
- (8) Reverb Knob: For adjusting the reverb level of the guitar channel;
- (9) Accompaniment Input: For connecting audio accompaniment from smartphones, computers, MP3 players, CDs, etc. (volume not controlled by (2) knob);
- (10) Headphone Jack: Automatically disconnects speaker output when headphones are plugged in;
- (11) Charging Input: Can be connected to USB-5V power from smartphone chargers, computers, power banks, etc., for charging, with the battery indicator light (3) staying on during charging.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Packaging Contents

1. iG-10Mini Amplifier*1;
2. USB to Type-C charging cable*1;
3. User manual*1.
